Bitcoin Free Drop Reward Platform

WHITEPAPER

Recently, numerous coins and tokens are being released, as well as new projects are continuously proposed as a result of the popularity of Bitcoin. That also makes Digital Asset Market become more active and prosperous. However, the current situation is that the majority of people are not familiar with digital assets including market-leading coins like Bitcoin or Ethereum, etc. Other cryptocurrencies are also faced with a similar situation. Even projects that take advantage of the Blockchain technology to issue tokens and create outstanding platforms that can change the world, they cannot approach the consumers. Moreover, some assets are slowly disappearing in the investment market.

However, companies that receive good reviews and expectations from their users still in hope of maintaining in the digital asset market, continue issuing tokens as well as creating new projects. The number of such companies is constantly increasing, also the development and growth of electronic asset market is forecasted to grow steadily in the future.

Currently, users still haven't had any professional marketing platform to access cryptocurrencies easily. Therefore, the trade promotion agency of cryptocurrency is making great efforts to find solutions as well as investing a large capital amount in advertising and marketing, but still encounter obstacles in the current situation. Creating a great effects of marketing is already difficult, making a project successful and many people know about new cryptocurrencies is even more challenging.

'Bit Storage Box' (BSB) is a platform that pays 'Bitcoin', 'BSBT' token, the key currency of BSB, and various cryptocurrencies registered on the platform, to members through simple quiz games and surveys. It provides a service that induces fun and interest and uses cryptocurrency as a reward through games and participation. BSB is a reward platform based on advertisement, and the financial resources for reward are provided from the advertiser's advertising expenses. A member receives reward when he solves a quiz game or participates in an advertiser's survey by watching an advertisement. Users can create quizzes or surveys themselves to receive rewards, and advertisers can register quiz games or surveys themselves too.

Blockchain operators can become advertisers and distribute tokens using quiz games and surveys to promote their own tokens, to use their own tokens for rewards and transactions. Through this, members can easily access various tokens and receive tokens as a reward. In addition, various tokens held by members as rewards can be recycled as economic value through peer-to-peer (P2P) transactions. As such, BSB provides a beneficial structure for both blockchain operators and users, and is a platform that can create a self-sustaining blockchain token economy.

The ultimate goal of the BSBT project is to build a blockchain ecosystem in a virtual space, can reproduce and trade all valuable digital content in the world with NFT, and create an NFT-based 'BSBT World' that can be expanded infinitely. NFT stands for Non-Fungible Token, because each token represents a unique asset with a different value, its scarcity value is great. In particular, almost anything can be tokenized, digital ownership is guaranteed by blockchain technology, and irreversible proof of transactions. BSBT project established a business roadmap to build an NFT-based 'BSB World', accordingly, the Bit Storage Box (BSB) service launched first. When users do quizzes and get cryptocurrency rewards, they will become more familiar with blockchain. Thereby, BSBT will create a beneficial and correct token economy, laying the foundation for the expansion of the block chain ecosystem.

The non-fungible token NFT is expected to continuously growing due to the combination of the current and new trends such as the metaverse. Metaverse is a compound word of 'Meta' meaning abstraction and 'Universe' meaning the real world, it refers to moving the real space to digital as it is. Recently, due to the spread of COVID-19, games using the metaverse have emerged. Strategy Analytics (SA), a market research firm, predicts that the 'metaverse economy' represented by VR and AR will grow to \$280 billion (314.58 trillion won) by 2025, more than six times the current level.

In this metaverse space, NFT is a tool used as the value of goods. For example, in Decentraland, a game based on blockchain and metaverse, land is an NFT. Users who own land can also build buildings. Since NFTs are scarce, land is very valuable, you can also sell lands in game. Similarly, in the blockchain-based game 'The Sandbox', the real estate 'LAND' in the game is an NFT, Currently, LAND continues to sell out every sales period.

As such, NFT is used in games, movies, music, digital art, and various industries, and is expected to grow rapidly.

In the 'BSB Quiz World' metaverse, anyone can build their own unique quiz city through NFT. Through it, you can expand your city by realizing the interests of yourself and the participants. Anyone can issue their avatar card as NFT and sell it on the market, and if there is something valuable, you can issue it as a new NFT and trade in B2B. As such, the final goal of the BSBT project is to build an NFT-based BSB quiz world in a virtual space called 'BSB Quiz World Metaverse'.

Nowadays, there are many YouTube Creators who increase income from advertising by posting videos on YouTube. They have to fiercely compete for viewers such as uploading videos with diverse content, constantly developing their channel values, and gradually connecting with sponsors to create videos in the form of businesses. They post videos in different fields, earning an enormous profit from advertising. This huge profit brings them from a Youtuber in form of business to a YouTube content creator with the same popularity as celebrities. This is an era where everyone, regardless of male-female-old-young, anyone can make money by creating content on YouTube.

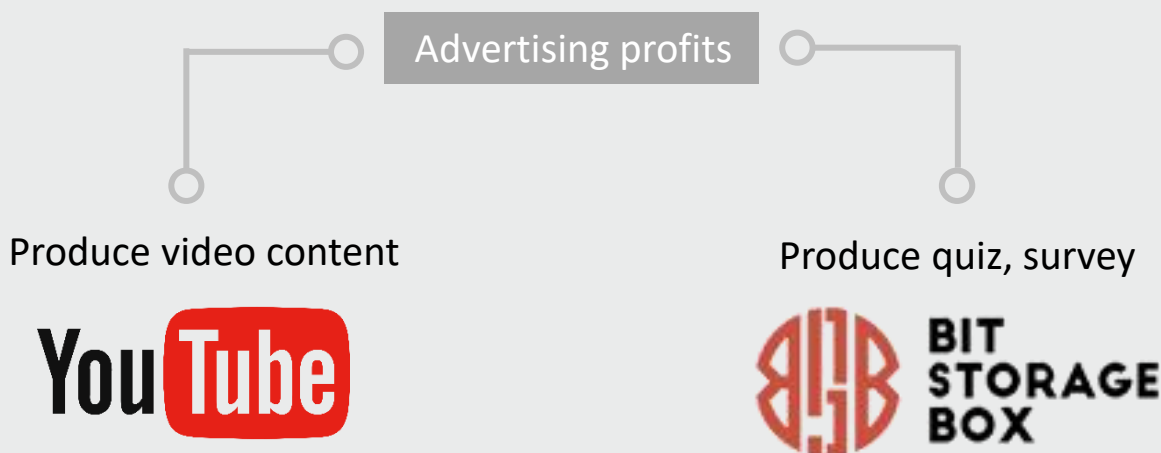

Understanding that, "Bit Storage Box (BSB)" is designed as a platform that gives awards in the form of gaining profits through advertising. Anyone using this platform can create, join, relax and learn about general and specialized knowledge in the world, things we already know or want to know through the form "Quiz and survey". In addition, users can receive rewards of electronic assets as valuable as goods.

Bit Storage Box "BSB" is a place where anyone can post their content of quizzes or surveys and earn profits from advertising. Moreover, users can play games while learning new knowledge and also receive bonuses based on their game results.

Implement a real token ecosystem with popular code

All knowledge and common sense in the world lead to economic benefits.

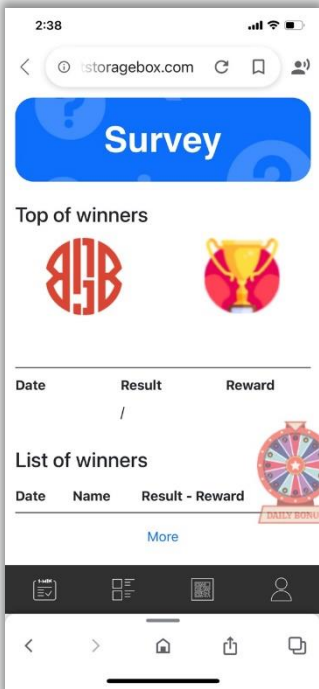

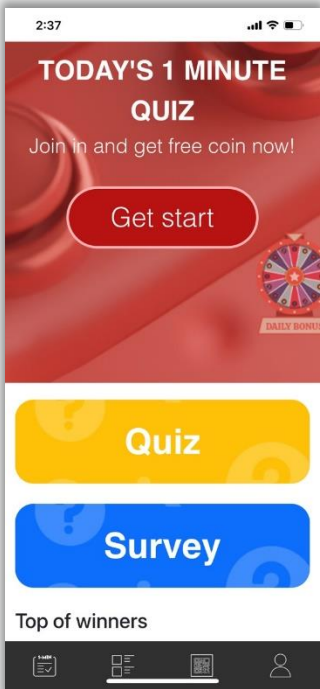

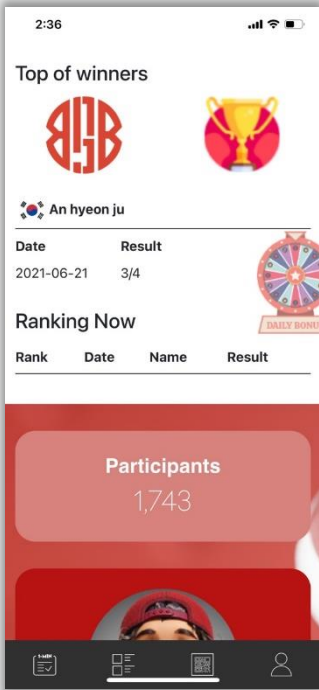

The BitStorage Box BBS platform will implement a practical token blockchain ecosystem that can be used publicly by provide an easier and more friendly digital token economy.

Bit Storage Box is a cryptocurrency rewarding platform on the basis of advertising. Users are divided and kept the profits earned from displaying advertisements. In addition, users can receive “Bitcoin” and “BSBT” a specific token created by Bit Storage Box by sharing, playing games, and answering surveys, events. Bit Storage Box manages the system based on the Blockchain platform, providing users with safe and transparent service.

Easy membership registration, avatar growth mode according to 7 levels, and game benefits through various items

—

To receive the rewards by participating in or using the free service on Bit Storage Box, users will be required to watch the advertisement. However, through the direct message of "get rewarded with Bitcoin", it is possible to increase user utilization and participation. This helps to optimize the effectiveness of advertising.

—

Advertisers can create events, videos, and images the way they want, as well as checking advertising statistical data in real time. Moreover, they can also draw up a strategy for optimizing the efficiency of their advertisement by directly creating and sharing quizzes or questionnaires.

—

Users can directly create quiz through the quiz creation system of Bit Storage Box, or answer the quiz as a user to receive "Bitcoin" or "BSBT". The creator of quizzes or questionnaires will continuously gain advertising profits in the form of "BSBT". This creates a cyclic structure between creators and users of content quiz, or surveys in the form of BSB.

—

Users can receive "Bitcoin" or "BSBT" by participating in events and answering questionnaires of advertisers. They can have more bonus rewards with "BSBT" if they share events that introduced in the platform. In addition, users are allowed to create questionnaires themselves and share in Bit Storage Box.

—

Bit Storage Box will send a special link code for users who suitable with evaluative criteria of this platform. When that user shares his link code to others and invites successfully a new user, he will receive a certain bonus "BSBT".

—

All quizzes and questionnaires will be censored by the system to check the validity and suitability. Thus, some harmful and duplicate contents, or questionnaires with incorrect answers will not appear.

—

Bit Storage Box works based on giving rewards which encourage users to join and share events, answer questionnaires, play game, etc... according to the effective advertising strategies that advertisers desire. This platform creates a network based on the belief where users and advertisers can join and achieve their benefits without a third-party.

- **Ready to take the quiz**

- In order to receive rewards after initial membership registration, users must install 'My Star Wallet'
- You need to check your BTC wallet address and 'BSBT' wallet address in My Star Wallet and set the input settings.
- If you do not set a wallet address, you cannot participate in the game, and you can enter the wallet address in the member account settings.

- **Start solving the quiz**

- Users can participate once a day in the 1-minute quiz game provided by Bitstoragebox.
- When the 1-minute quiz game starts, an advertisement video or image advertisement with a maximum length of 15 seconds is showed first.
- When the advertisement is ended, a short notice about the game appears and the 1-minute quiz starts immediately.
- Quizzes on various topics are presented one by one, and participants must solve the quiz for one minute.
- After one minute, the game automatically ends, you can immediately check the result of the quiz.
- The result of the quiz is ranked according to the participant with the most correct answers, and the specified reward is distributed to all game participants.
- Participants who achieve 1st place will receive 'Bitcoin', and the rest of the participants from 2nd place will receive 'BSBT'
- When the game ends, the reward information is sent to the participant as a 'push notification' and can be checked.
- Game participants can check the payment details in the digital asset management wallet 'My Star Wallet'.

- **Create Quizzes**

- Users can create or post quizzes according to the form provided by Bit Storage Box.
- After submitting the quizzes and be approved by the admin, users receive BSBT as a reward.
- Users will not get a reward if they submit a duplicate quiz or quiz that has similar content to others

[You can expect continuous advertising revenue from quiz and survey content you create.](#)

- **Quiz Library**

- When a quiz is approved, it is posted in the 'Quiz Library' at the same time, so that members can study this quiz.
- Members can 'like' or 'comment' and rate the newly created quiz in the quiz library. The quiz with high ratings, 'likes' or comments will receive additional special benefits set by the headquarters

- **Avatar growth, up to 7 levels**

- Avatar growth mode from level 1 to level 7
- Using items to increase competency and winning rate

- **Answer survey**

- If you submit answer to the survey provided by Bit Storage Box, you will be rewarded with a certain amount of Bitcoin according to your contribution.
- In case of duplicate submission of the same survey, compensation is not possible for it is judged that the answer is insincere.

- **Create survey**

- You can create and submit a survey according to the input form provided by the bit storage box.
- After submitting and be approved by admin, you will receive a certain amount of BSBT as a reward.
- In the case of duplicate submission of the same survey, or the content is similar to other survey, you can not receive reward.

- **Rewards for participating and sharing events**

- After participating in the event provided by Bit Storage Box, you can receive BSBT as a reward according to the event rules.
- After participating in the event, you can share it and receive BSBT when other users participate in the event.
- All rewards for participating and sharing is different for each event, so the rewards is paid according to the event's rule.

- **Register for quiz, survey, event for advertisers**

- Advertisers can create and submit quiz based on Bit Storage Box's form. (quiz will be posted after the admin approved)
- The advertiser can create and submit survey based on Bit Storage Box's form (the survey will be posted after approved by the admin)
- The event registration of advertiser must be discussed with the Bit Storage Box Event Manager and conducted after the contract is signed between the two parties.

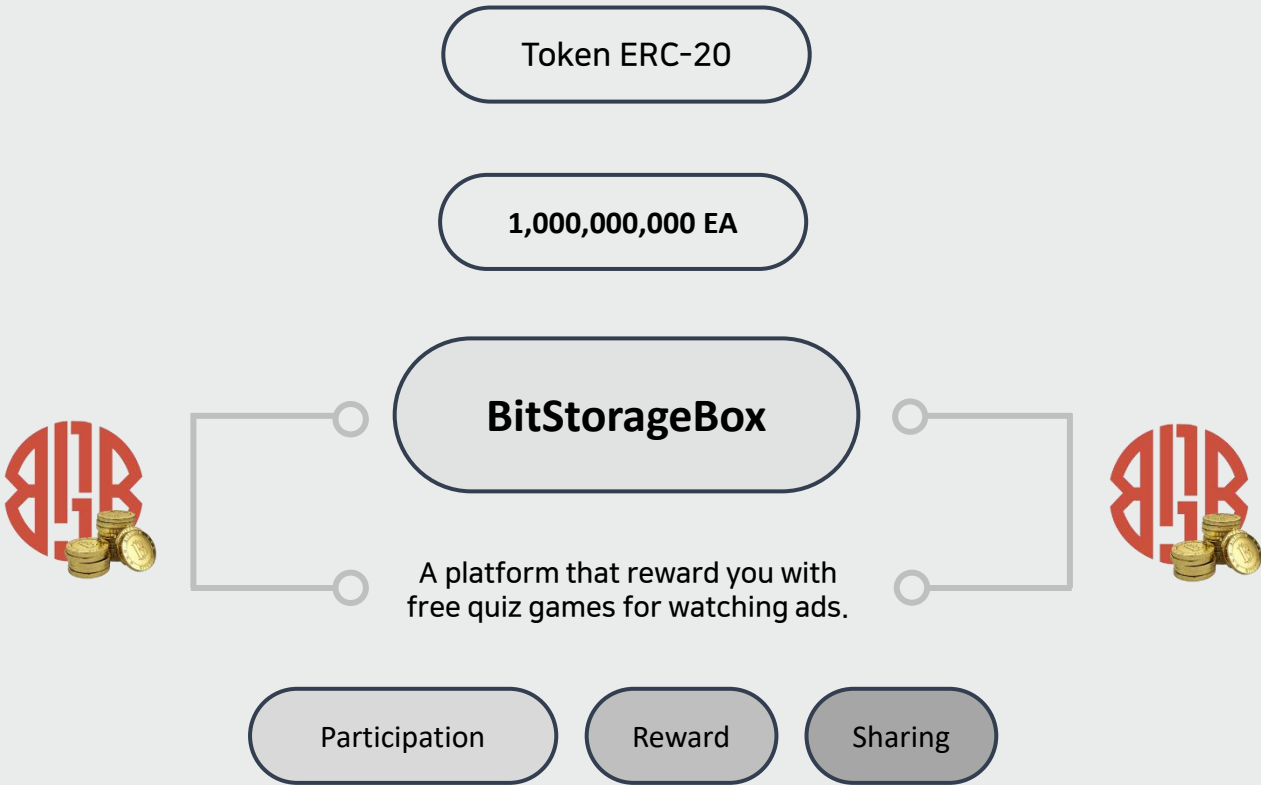

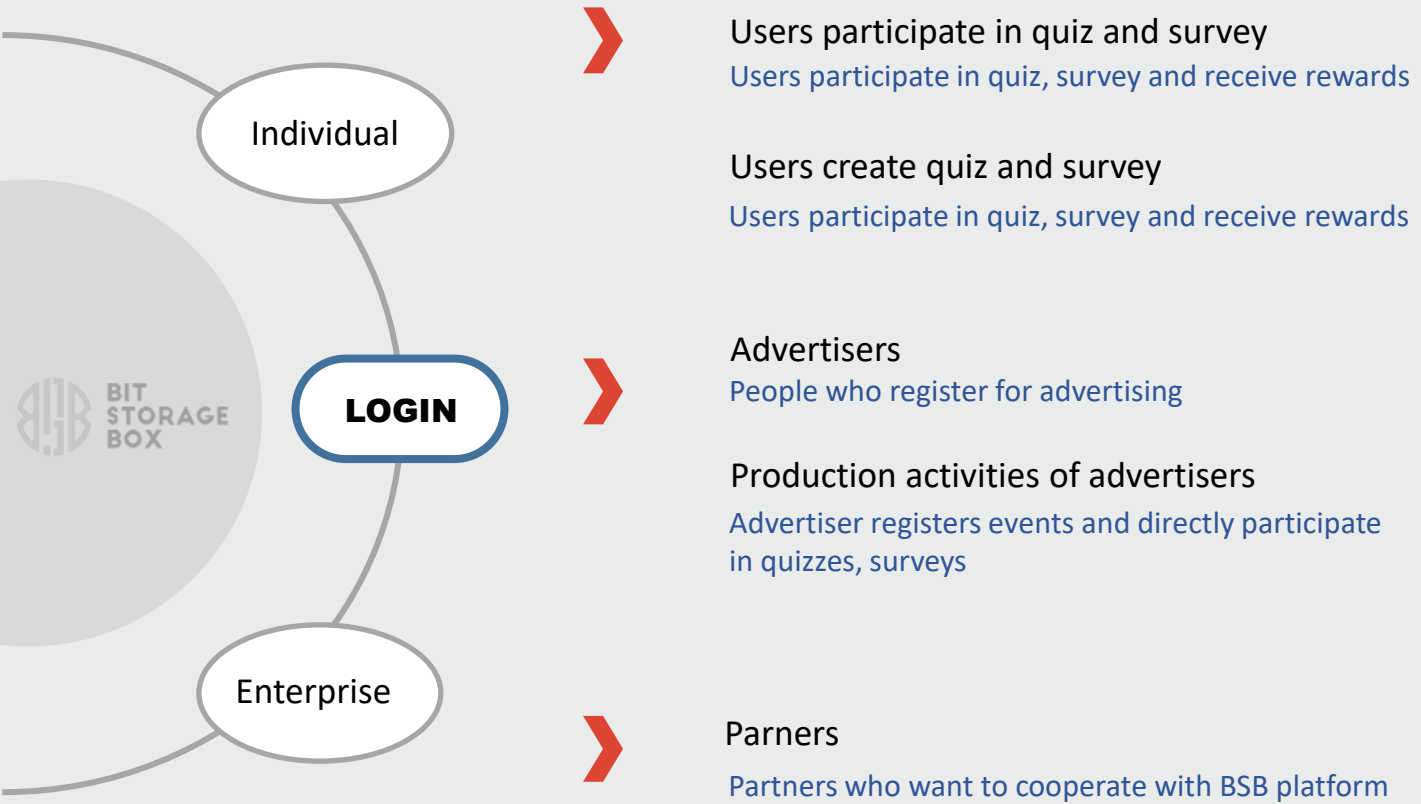

• BSBT (Token)

BSBT tokens are tokens that are used to exchange rewards, payments, and digital assets for all users who participate in quizzes and surveys on the BSB platform and provide practical economic value.

Both enterprise and individual customers have access to all services required for advertising and compensation on the BSB platform, and users of the BSB platform become members of the blockchain ecosystem through BSBT, extending the usability and value of the BSBT token and accelerating the growth of the BSB platform.

BSBT tokens offer a variety of opportunities for your finances to grow faster and provide better returns.

Advertising profits will be divided equally among users who participate in quiz, vote, and survey. These profits come from the payment of advertisers pays in Token (BSBT).

Advertisers can directly produce, manage, share quizzes or questionnaires, thereby, optimize the efficiency and advertising features based on the Blockchain technology.

In addition, users can also directly produce, share quiz and receive rewards

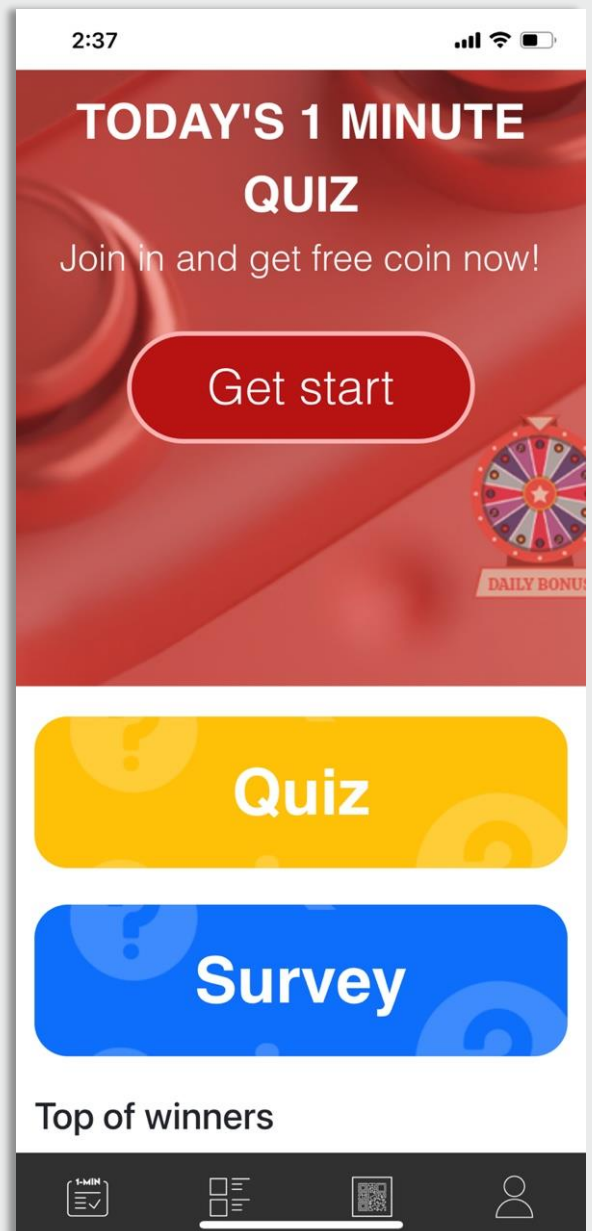

1-minute-quiz

This is a 1-minute-quiz, users who answered correctly will be rewarded.
Only join 1 time per day

Survey

This is a method of answering survey and will be rewarded with a certain BSBT

All information of surveys and “content” knowledge that posted on the platform is saved in the Blockchain system. The users’ reward is charged into advertising fees of advertisers. That fee is paid and managed by the Smart Contract..

Participate

Verify

Compensation

Exchange

- **BSBT Reward**

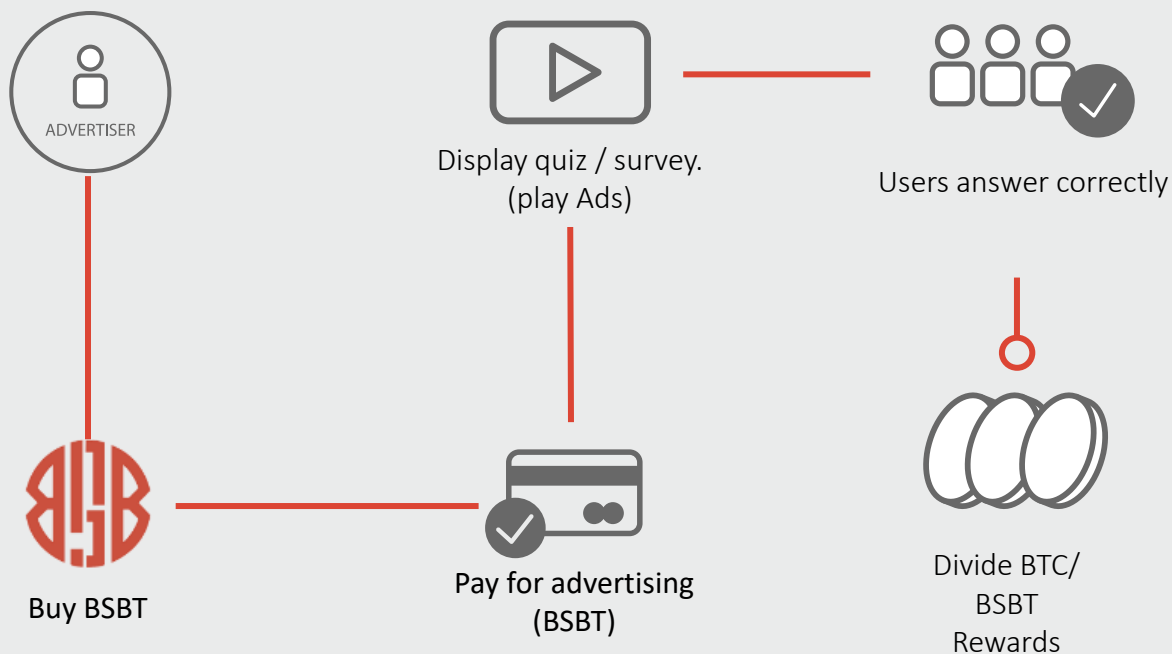

- When submitting a new and being approved, you will receive a certain amount of BSBT
- When submitting a new survey and being approved, you will receive a certain amount of BSBT - The BSBT rewards are divided equally among the number of
- participants, which can be converted into other electronic assets. - Profits from turning on advertising in quiz and survey will be paid by BSBT

- **Bitcoin reward**

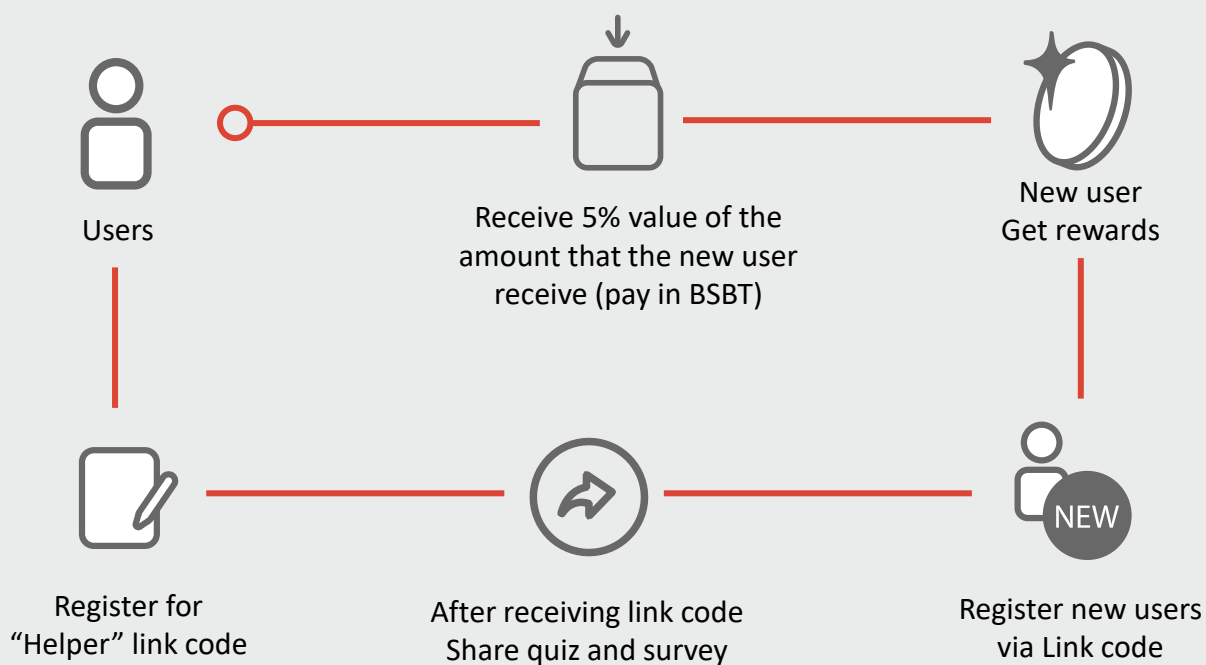

- When users answer the quiz, they will receive Bitcoin divided for that quiz.
- When users answer the questionnaire, they will receive Bitcoin divided for that questionnaire
- The Bitcoin rewards are divided equally among the number of participants, which can be converted into other electronic assets.
- If an advertiser directly posts the quiz or survey for advertising purposes, Bitcoin will be divided by the number that the advertiser has installed

- **BSBT reward from “Helper” link code**

When a user shares a link code given by the Service Manager and successfully invites new members. That user will constantly receive 10% value of the Bitcoin that the new member received.

Rewarding process when sharing

Joy and rewards

- The structure of quiz and survey is simple and interesting

Providing some simple puzzle games related to Blockchain and daily life such as global issues, sports, history, elections, etc. Besides, users can also create and conduct surveys about the things people are curious about or interested in. Thereby, users can find fun via playing games and receiving rewards. This helps increase the participation rate of Bit Storage Box

The advertising effectiveness that advertisers can get

- Watch ads and play the game for free

Bit Storage Box is a platform that provides services for users based on advertisers' advertising fees. Members must watch ads video or image within 15 seconds to be able to join the game for free. As all games are exchanged for the Bitcoin or BSBT reward. Thus, the system has already set up an advertising structure where the user must see all the sponsor's ads to receive the reward.

Poll / quiz creator

- Create a concept "new creator" about the quiz and survey field.

These creators produce content for Quiz and Survey categories including common and professional knowledge. Thereby, they will get the same profit from advertising as YouTube creator. The only difference is that these profits will be paid in BSBT. This encourages production activities to become more active, which promoting self-producing and using within the BSB platform. The main subject of these activities is creators and respondents (participants) those questions.

The efficiency of the Token economy

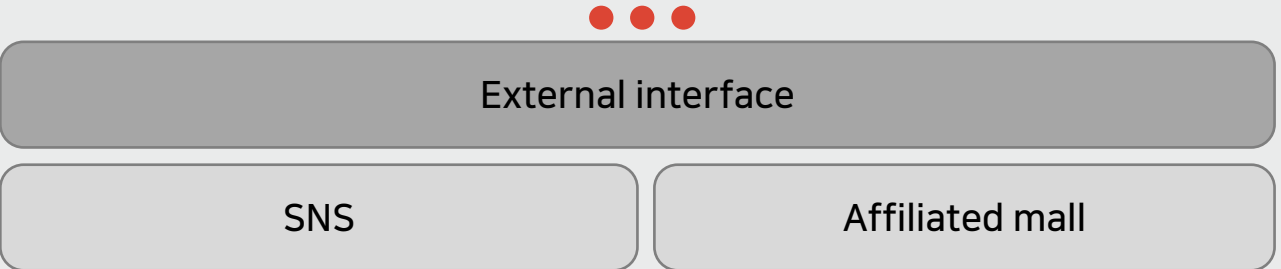

- New users are continuously added by old users who gets number of BSBT reward corresponding to the number of new user they have invited

User can become introducer by sharing referral links on different blogs or social networks such as Facebook, KakaoTalk, WeChat, Line, WhatsApps ... Thereby, if having new members register, users will receive rewards paid in BSBT corresponding to their efforts. This system will continuously attract more participants to register as new members, expand Bit StorageBox's services as well as ensuring advertising activities occurs constantly

• Blockchain

- Reward programs are accepted from multiple advertisers or members through systematic protocols and Smart Contract technology
- Users’ rewards will be converted into tokens on the block chain network. Tokens are registered as unique value, avoiding being counterfeit
- Cryptocurrencies are exchanged between BSBT and other digital currencies via linking with an E-wallet (MY STAR WALLET)
- New “content” knowledge and rewards are managed by Blockchain node, which helps increase the stability of operation and enhance security
- The customer terms and interests are managed clearly including payout ratio, benefitcost ratio via blockchain network.

Reward distribution and safety

- All reward transactions must be saved, and each user must be assured of safety and obvious distribution of rewards

Protecting and censoring knowledge “content”

- Knowledge “content” that the participant creates is stored in the Blockchain system, which protects and censors all production activities.

Analyzing efficiency of advertising statistical document

- Through statistical documents running in the platform, advertisers will easily manage ads, check billing information and analyze documents at any time.

A scalable blockchain ecosystem with NFT

- In the future, we will build a system that can move to the BSB Quiz World Metaverse and implement a service that allows users to experience NFT first in BSB.

BSB - BSBT PR Marketing Strategy

1. Current situation

- Up to now, members have been promoting their own Telegram and Facebook. As of June 27, there are 183,186 users.
- Users from the Philippines, Vietnam, and Indonesia mainly participated in the test.

2. Public Relations Strategy by Country

- After the full opening
1st: Concentrate on PR in Korea, Japan, Vietnam, India, Indonesia, Singapore, and Malaysia
Second round: Promotion to China, Russia and neighboring countries, Middle East countries, Africa and South America.
- Strategies for granting business rights to branch offices by country.

3. Detailed promotional marketing strategy

- Opened YouTube "BSB Show"
MC is good looking Chinese and American man and women who are proficient in English and Chinese.
MC and the panel have weekly news about BSBT and chat and chat with the winners of the quizzes.
Marketing through content in an interesting format.
- Periodic online meetup.
- Actively promote to Telegram, Facebook, CoinMarketCap, CoinGecko, and other coin-related communities
- Blog Marketing.
- Church (members) marketing through the Bible quiz show (in preparation)
- Marketing to attract members through collaboration with other platforms.
